design by A.M.

It's easy to keep *THIS* kitchen clean

### Dominion Linoleum Rugs

There are two reasons for the popularity of Dominion Linoleum Rugs. One is that they are so easy to clean and keep clean. The other is that they are so beautiful. Dominion Linoleum Rugs are made of a special material that is both durable and beautiful. They are available in many colors and patterns to suit your taste.

Smooth, seamless Dominion Linoleum makes the finest kitchen floor imaginable. It's so bright and practical, so delightfully easy to clean and keep clean. Dominion Linoleum is waterproof. Dirt or grease cannot grind into its firm, enameled surface. Light mopping or brushing removes every trace of disorder. And it wears for years.

Make YOUR kitchen a pleasant place to work in, with cheery Dominion Linoleum. It comes in a wide range of patterns and in shades sufficient to color any ordinary room from wall to wall, without seam or mark. In fact, you will find Dominion Linoleum desirable for ANY room. It's simply a matter of choosing an appropriate design and color scheme.

## You need a headset

- to tune-in with
- to get distant stations — both domestic and foreign
- to listen-in without disturbing others
- to shut out the noise in the room — and get all the radio fun
- to get the truest and clearest reception — always

No one realizes these facts more forcibly than the makers of the famous Radiola IIIA. They include Brandes as standard equipment.

*Be sure your set is Brandes equipped*

## McLagan's Open Door Policy

When You Buy McLagan GRAND MASTER Furniture  
You'll Know Exactly What You Get

FURNITURE, like everything else manufactured and sold, is subject to misrepresentation and misunderstanding. For instance, a customer may receive the impression that a table is of genuine walnut or mahogany when, in a matter of fact, the posts and legs are of pine, while the top, stained to imitate mahogany, is made of the pine panels and the less prominent parts.

How much more satisfactory it would be if the customer had a full understanding of just what woods were actually used.

### Customer Has a Right to Know

Most furniture, of course, is made by reputable firms of the cheaper woods, stained to resemble walnut or mahogany, but these firms tell it so truthfully. The dealer has no lack of information and in the stress of competition

both and guarantee both recognized cabinet woods, but of course they are not as rare as walnut or mahogany. The dealer is not misrepresenting and misquoting to make sales in this. There is nothing wrong in using other kinds or woods for all or part of a piece of furniture, but such pieces should not be sold as genuine walnut or mahogany. The customer has a right to know what he is getting, and should be charged only for the quality of goods sold.

We want to tell McLagan Grand Master Furniture in the spirit of honesty. The McLagan Furniture Company does not desire to take anything from the public to whom it addresses itself in an advertisement. We try to be absolutely straightforward. Since 1886 we have been making furniture of genuine character, and substantial construction, select in line and proportion, finished with particular care. The reputation of McLagan Grand Master Furniture comes from such a record and speaks for itself in all those who are concerned in good furniture.

### Our New Plan Protects You

But we are going one step further than we ever did before, and further than any other furniture manufacturer in Canada has gone. We are going to specify in detail the materials and construction in every piece of McLagan Grand Master Furniture that we sell. We will state what woods are used, what period or style of design, what the construction, what materials go into the construction and what the finish. These specifications will be backed by the guarantee of the McLagan Furniture Company. They will leave no room for doubt or misgiving, and they will bring into sharp contrast the distinction between McLagan Grand Master Furniture and furniture of the inferior of which there is so much to be seen.

Each McLagan piece leaving the factory hereafter will bear a guarantee certificate containing all guarantees that are in the buyer's mind, and assuring them only the name of this company and subject to the McLagan Grand Master warranty.

Grand Master Furniture is made in the spirit of honest, open-minded and good faith. It is built upon the enduring principles of sound construction laid down by the late George McLagan, who

avoided his craftsmanship after that of the old masters of the Elizabethan Century—the period that has been called the Golden Age of Furniture.

### A Choice to Fit Every Budget

For a quarter of a century, every piece of McLagan Furniture was designed by the late George McLagan, recognized for forty years as the Grand Master of the Canadian Furniture Industry. Always, he supervised every stage of construction. Now his ideas and plans are being carried out by those who worked with him and who now carry on the great industry he founded.

There is a wide variety of pieces, a choice to fit every budget and taste. Every piece of genuine McLagan Grand Master Furniture bears the mark of the late George McLagan. Look for it. Ask your dealer to show you McLagan Grand Master Furniture.

How can it come to this? That is what we shall try to find out.

During the century the United States spent more than seventy billion dollars, it has not yet seen four worth spent and has not yet seen four worth recovered.

The United States pumped more than \$1 billion into the world war with a date of emergency set at half billion dollars which, by August 1944 had increased to twenty-

## The Right Name on the Right Product

WITH many products the trade name is selected because of its supposedly advertising value. In other words, it doesn't typify anything significant in the product itself or its history. How different with "Dunlop"!

That name was selected for a tire without regard to any other fact than this:—Its owner—J. B. Dunlop—invented the pneumatic tire, and what is more suitable than a product being named after the man who made the product possible?

Dunlop by itself would have meant no more than Smith, Brown or Jones. "Dunlop" branded on a tire means—

Colgate's removes causes of tooth decay

These healthy little fellows know the proper way of caring for their teeth.

**T**HE time to fight unhealthy teeth is before disease sets in—not after. Give yourself and your family a chance to escape disease by the most effective and inexpensive method in the world—prevention.

Preventive science is the new development in dentistry. Its aim is to keep teeth healthy—and teeth can be kept healthy only when they are kept clean. Healthy teeth are as necessary to beauty as pretty eyes and a lovely complexion.

Causes of tooth decay must be removed—safely. Soap and chalk, scientists say, are the best agents yet discovered for cleaning teeth safely—and these are ingredients of Colgate's Ribbon Dental Cream.

## "Washes", Polishes and Protects

Colgates does not scrape teeth. It washes them gently and thoroughly. Washing action results from the mild vegetable oil soap. The chalk removes clinging particles of food and the soap washes them away. The mouth is left in its normal condition—refreshed and clean.

There is no grit in Colgate's, for grit scratches tooth enamel and thus invites decay instead of fighting it.

Colgate's contains no dangerous ingredients. Its function is to cleanse and protect.

## The Safe Course

See your dentist at least twice a year and use Colgate's regularly. It is priced as sensibly as it is made—45¢ for the large tube.

**BAD** teeth and malnutrition are closely associated. In the United States 68% of the school children have defective teeth; 22.7% suffer from malnutrition. (Authoritative figures.)

Dr. Robert Hugh Rose, in his book "Eat Your Way to Health" says, "If these defects were confined to the poor it would not be such a reflection upon our conception of how to nourish the nation, but the rich suffer about the same as the poor."

When teeth decay, either from faulty diet or from lack of care, development of the child is retarded both physically and mentally. Poison from decaying teeth permeates the body. Then serious trouble starts. Dread diseases may develop. Even life itself may be cut short.

Many cities have undertaken preventive dentistry in the schools. Philanthropic organizations have taken hold. Big business institutions are making tooth care compulsory. It means better work from employees, and fewer absences.

As education advances—as the serious effects of unhealthy teeth are becoming known—more and more forces are combating this national defect. Conditions can greatly be improved.

Give the child a chance!

These New York City school children are being given a chance to escape the consequences of unhealthy teeth.

Healthy mouths lessen the danger of "caching" disease.
